INFORMATION ABOUT THE EDITOR

EDITORIAL

Dear Readers,

Our quarterly newsletter keeps you informed about current and forthcoming BILAT-UKR*AINA project activities and current developments in EU-Ukraine Science, Technology and Innovation (STI) cooperation.

In this issue you will find information about project activities as well as relevant news and events. Detailed information can be obtained [here](#).

We would like to invite you to visit our [project website](#) as well as [S&T Gate information portal](#), which is maintained by BILAT UKR*AINA, where you can find further up-to date information about the latest developments in the field of EU – Ukraine STI cooperation.

The BILAT-UKR*AINA Team

Twinning Grants: IncoNet EaP supports 'Clustering of Scientific Projects and Institutions'

The main goal of the twinning action is to enhance mutual learning, to strengthen cooperation between the EU member states and the Eastern Partnership countries and to plant the seed for sustainable scientific, technological

and innovation EU-EaP projects. This goal shall be practically implemented through granting projects of twinning teams (see below), which will ultimately support the preparations for proposals for EU HORIZON 2020 calls. This call will embrace three innovation related topics on societal challenges which are: **Climate change, Health, Energy**. The final call deadline is 31.03.2016. Applications will be accepted continuously as long as a funding budget in IncoNet EaP is available.

Travel Bursaries for Ukrainian research managers and administration professionals to attend the EARMA Annual Conference in Tallinn

The 20th Annual Conference of the European Association of Research Managers and Administrators (EARMA) will take place from the 30th June till 2nd July 2014 in Tallinn. The Conference focuses on cross-border research collaboration, the challenges with regard to the HORIZON 2020 Programme, research management from policy to practice and on the professional development of research managers and administrators. Registration is open [here](#) until 21 June. For Ukrainian research managers and administration professionals it is possible to apply for an EARMA Widening Participation Travel Bursary to attend the EARMA Annual Conference. More information about the EARMA Travel Bursary Scheme and for the on-line application form can be found [here](#).

New stipends for Ukrainian scientists and faculty staff: The Austrian Federal Ministry of Science, Research and Economy supports 20 additional stipends via the OeAD for Ukrainian scientists and faculty staff

Caused by the situation of the previous months in Ukraine, the Austrian Federal Ministry of Science, Research and Economy supports additional short stipends for young Ukrainian scientists and faculty members (lecturers) at the amount of 20 months for the study year 2014/2015. *"We want to enhance the dialogue with Ukraine and the cooperation between Austrian and Ukrainian universities"* says science minister Reinhold Mitterlehner. According to OeAD-CEO Hubert Duerrstein *"are the planned short visits a proven instrument to support the good work of the Austrian representation offices in Ukraine, which strengthens future-oriented cooperation to enhance civic development"*. The award of the short stipends is done by the OeAD-Cooperation Office in Lviv in cooperation with the liaison office of the Austrian Embassy in Kiev. Applications should be submitted to Mr. Andreas Wenninger (andreas.wenninger@oead.at) of the OeAD-Cooperation Office in Lviv.

The Danube-INCO.NET project successfully kicked off its project platform and started with first activities

DANUBE-INCO.NET is a FP7 funded coordination and support action for the official EU Strategy for the Danube Region (EUSDR) in the field of research and innovation. On May, 17th, the official Danube-INCO.NET project platform was launched (<http://danube-inco.net/>). The platform is the main communication tool within the project and serves as an information/knowledge database, including both internal and external entries on news... read more [here!](#) **Ukrainian researchers** are warmly invited to access the Danube-INCO.NET platform for any up-to-date information about research and innovation in the Danube Region. Further, the platform assists researchers in finding new calls

for application, funding, jobs etc. and introduces the networks existing in the region to them. Also for event announcements or any news about what is happening in the context of research and innovation all over Europe, www.danube-inco.net is the right place to look this up.

European Service Innovation Scoreboard launched

The European Service Innovation Centre, set up by the Enterprise and Industry Directorate-General of the European Commission, has published the European Service Innovation Scoreboard (ESIS) – providing for the first time a comprehensive overview of the impact of service innovation at national and regional level across the EU.

The European Service Innovation Scoreboard presents data on 59 indicators that together capture a diverse range of activities related to service innovation in over 270 European regions. The Scoreboard consists of three scorecards that highlight the importance of service innovation in a region, that can be used as tools in regional policy making to promote structural change and that capture the general economic performance of a region overall.

The Scoreboard provides the viewer with an opportunity to analyse the performance of any of the 270 regions and to compare it to the EU27 average performance or to the performance of another region in Europe.

UPCOMING EVENTS

Second International Congress on 3D Materials Science, Annecy, France

The Second International Congress on 3D Materials Science will be held from 29 June to 2 July 2014 in Annecy, France. The congress aims to provide a forum for the presentation of three-dimensional characterisation, visualisation and modelling in addition to structure-property relationship.

It will provide a space for critical discussion and interaction among researchers in materials science to assess the latest developments in the field, and to roadmap key areas of future research.

'CAPS2014 Conference', Brussels, Belgium

The CAPS (Collective Awareness Platforms for Sustainability and Social Innovation) 2014 conference will take place from 1 to 2 July in Brussels, Belgium. CAPS2014 is the first international event on Collective Awareness Platforms for sustainability and social Innovation. The 'CAPS2014 OFF' part of the event, taking place on 1 July, will offer a dynamic schedule of talks, 'unconferences', workshops, hands-on sessions and networking moments. Then the CAPS2014 Conference part, taking place the following day, will provide participants with an overview of current projects and initiatives and with detailed information of the upcoming CAPS Call under Horizon 2020 (opening in September 2014).

Access to the event is free of charge but registration is compulsory. CAPS2014 is organised under the aegis of the European Commission through the CAPS2020 project, coordinated by Sigma Orionis.

'European Orthopaedic Research Society Annual Meeting', Nantes, France

The European Orthopaedic Research Society Annual Meeting (EORS 2014) will take place from 2 to 4 July in Nantes, France.

The EORS 2014 Conference seeks to attract a high level of specialists, front-line researchers, surgeons and decision makers interested in discovering the latest developments in orthopaedic research. Conference topics include biomechanics, regenerative medicine, imagining (diagnosis and treatment), dental, oral and maxillofacial surgery, biomaterials and next generation orthopaedic research.

Key note speeches will cover topics such as: 'Perspectives on the induced membrane technique for bone defect reconstruction'; 'Engineered osteogenic and vasculogenic grafts' and 'Bone sarcomas: the tumor niche as a source of new therapeutic targets'. Registration for EORS 2014 is now open and fees range from EUR 250 to EUR.

'International Conference on Agricultural, Ecological and Medical Sciences', London, United Kingdom

The 'International Conference on Agricultural, Ecological and Medical Sciences' (AEMS-2014) will take place from 3 to 4 July 2014 in London, UK.

The conference aims to bring together leading academic scientists, researchers and scholars to exchange and share their experiences and research results regarding all aspects of agricultural, ecological and medical sciences. Participants will also discuss the practical challenges encountered and the solutions adopted.

Participants are invited to submit full-length papers, short papers, posters and abstracts that address the themes and topics of the conference, including figures, tables and references of novel research material.

Third Journal Conference on Environmental Science and Development, Nottingham, United Kingdom

The Third Journal Conference on Environmental Science and Development (JCESD 2014) will take place from 4 to 5 July in Nottingham, United Kingdom. The conference aims to provide a forum for researchers, practitioners, and professionals from the industry, academia and government to discourse on research and development, professional practice in environmental science and development. It is one of the leading international conferences for presenting novel and fundamental advances in the fields of environmental science and development.

Submissions for the conference will be peer reviewed and chosen based on technical merit, interest, applicability, and how well they fit a coherent and balanced technical program. Registration fees range from EUR 375 to EUR 750.

'Fluorine Days', Bordeaux, France

A conference entitled 'Fluorine Days' will be held from 6 to 10 July 2014 in Bordeaux, France. Organofluorine chemistry is a very active research field which finds important applications in the design of new pharmaceuticals, agrochemicals, polymers and radiochemical amongst others. The aim of the conference is to provide an overview of current directions in all aspects of organic fluorine chemistry. The event primarily addresses scientists in the organofluorine community, although it also welcomes those interested in the potential of fluorine in their own research.

'ICNPAA Congress: Mathematical Problems in Engineering, Aerospace and Sciences', Narvik, Norway

An event entitled 'ICNPAA Congress: Mathematical Problems in Engineering, Aerospace and Sciences' will be held from 15 to 18 July 2014 in Narvik, Norway. The ICNPAA congresses bring together scholars, leading researchers and experts from diverse backgrounds and applications areas. Special emphasis is placed on promoting interaction between the theoretical, experimental, and applied communities, so that a high level exchange in new and emerging areas within engineering, aerospace, and all areas of sciences and applied mathematics is achieved.

The biennial conference series attracts scientists, engineers and researchers from academia, government laboratories and industry across the world.

7th International Scientific Conference on "Energy & Climate Change", 8-10 October 2014, Athens, Greece

The event is oriented towards "Green economy". The Conference is divided in three main parts:

1. is devoted to policies promoting the Green Energy Development
2. is devoted to scientific presentations,
3. is shaped as a "Brokerage event" that will bring together scientists, engineers with policy makers/market stakeholders, to increase their cross-interaction promoting innovative solutions, cooperation on common topics. During this last part, a new session is devoted to participants that are interested to formulate consortia in the context of Horizon 2020 (or other international) calls for proposals.

Horizon 2020 Science with and for Society 2014 Calls. Deadline 2 October 2014

The aim of this programme is to build effective cooperation between science and society, to recruit new talent for science and to pair scientific excellence with social awareness and responsibility. It allows all societal actors

(researchers, citizens, policy makers, business, third sector organisations etc.) to work together during the whole research & innovation process in order to better align both the process, its outcomes with the values, needs, expectations of EU society. This approach to research & innovation is called Responsible Research & Innovation.

Call for Integrating Society in Science & Innovation: supporting structural change in research organisations to promote Responsible Research & Innovation. Deadline: 2 October 2014

The DG Research & Innovation of the European Commission launched a call in order to support structural change in research organisations to promote Responsible Research and Innovation - RRI. This topic aims at developing a Responsible Research & Innovation Plan covering five RRI keys (societal engagement, gender equality, gender in research & innovation content, open access, science education, ethics) in each participating institution. The action plan shall:

- Conduct impact assessment/audit of procedures and practices in order to identify RRI barriers at organisation level;
- Implement innovative strategies to address RRI barriers;
- Develop the RRI dimension in research content and programmes;
- Set targets and monitor progress via indicators at organisation level.

Calls for Proposals under the "Third EU Health Programme". Deadline: 25 September 2014 The DG for Health & Consumers, DG SANCO has published two calls for proposals within the "Third Health Programme":

- "Call for proposals 2014 for framework partnership agreements and for specific grant agreements for operating grants":
- This call has got one topic and a total budget of EUR 4.65 million. It will grant subsidy for non-governmental bodies and networks working at an EU level. In the context of the 2014 call, special attention will be given to organisations active in the fields of chronic diseases, cancer, HIV/AIDS, rare diseases, smoking prevention. The deadline: 25 September.
- "Call for proposals for projects 2014", is composed of seven individual topics focussing on the areas of chronic diseases, medicinal product pricing, health monitoring, healthcare associated infections. The call has a total budget of EUR 12.3 million. The Deadline: 25 September.

More information about the calls, as well as all relevant documents, can be found on the Horizon 2020 "Participant Portal" under the menu item "Third Health Programme".

Call for proposals for 'Sustainable Industry Low Carbon II'

The European Commission has published its call for proposals for 'Sustainable Industry Low Carbon II'. This new call comes under the Horizon 2020 specific pillar 'Industrial Leadership'.

Low-carbon technologies are essential both to reach the EU's climate and energy targets for 2030 and to implement the industrial roadmaps for the creation of a low-carbon economy by 2050. In particular, breakthrough solutions for advanced low-carbon manufacturing and processing are key to maintaining the competitiveness of EU industries.

The SILC II initiative supports research and innovation activities aiming to develop innovative, cost-effective technologies to reduce the GHG emission intensity (ratio between direct GHG emissions and output units of an activity) of manufacturing and process industries. Proposals will preferably focus on energy-intensive industries, in particular those which may be exposed to a significant risk of carbon leakage. Targeted sectors include, but are not limited to, production of iron and steel, non-ferrous metals such as aluminium and copper, cement, glass, pulp and paper, chemicals and ceramics.

Implementation of demonstration programmes and business plans are also expected to demonstrate the commercial viability of the technology. Activities are intended to start at Technology Readiness Levels 4-5 and target Technology Readiness Level 6-7.

Call for proposals for Individual Fellowships (IF)

The European Commission has published its call for proposals for Individual Fellowships (IF). This call comes under the Horizon 2020 specific pillar 'Excellent Science'.

Individual Fellowships aim to enhance the creative and innovative potential of experienced researchers wishing to diversify their skills through advanced training as well as international and intersectoral mobility. The scheme particularly supports the return and reintegration of researchers from outside Europe who have previously worked here. It also develops or helps to restart the careers of individual researchers who interrupted their career but showed great potential in the past.

The call is open to applications made jointly by the researcher and host organisation in the academic or non-academic sectors. The fellowships are either European (including Associated Countries) or global. European Fellowships are held in EU Member States or Associated Countries and are open to researchers currently within and outside Europe.

Overall, the fellowships are expected to boost the development of the best and most promising researchers active in Europe, in order to enhance and maximise their contribution to the knowledge-based economy and society. The deadline for submissions is 11 September 2014.

[READ MORE >>](#)

EUREKA, the European network for innovation is calling for projects to fund. Deadline: 1 August 2014

EUREKA launched a new call for technological innovation projects. National innovation and funding agencies from four European countries are taking part in the call; they are based in France, Germany, Spain, and United Kingdom. Applications are to be submitted before August 1st, 2014 to EUREKA National Project Coordinators (NPC). A single application form is available online, which is to be sent to NPC, depending on the applicant's location. Innovative companies and universities from EUREKA member countries which are not taking part this call and countries outside of the EUREKA Network may also participate with the agreement of their own national innovation agency.
